BULACAN, DILG UNVEIL SGLG-FUNDED SLOPE PROTECTION IN CSJDM

CITY OF MALOLOS – The Provincial Government of Bulacan (PGB), in partnership with the Department of the Interior and Local Government (DILG), officially inaugurated a new slope protection project in Barangay Assumption, City of San Jose Del Monte yesterday, June 15, 2026. The project was funded through the DILG Seal of Good Local Governance (SGLG) Incentive Fund, which was awarded to the Provincial Government of Bulacan following its successful attainment of the prestigious SGLG in 2024. According to DILG Regional Director Araceli A. San Jose, CESO III, the newly completed structure is expected to safeguard nearby residents and properties from the risks of erosion and slope instability, while contributing to the province’s broader climate adaptation and disaster risk reduction initiatives. With a total contract amount of ₱2,985,343.90, the project was implemented by J.G. Mendoza Builders. It involved the construction of a 76-linear-meter slope protection structure designed to mitigate soil erosion, stabilize vul-

nerable areas, and protect nearby communities and infrastructure from potential landslides. Bienvenido E. Punzal, Chairman of Brgy. Assumption, noted that the structure allows water to flow directly and more efficiently toward the creek, significantly reducing the risk of flooding for nearby residents. “May mga parte po kasi dito sa amin na may mga gumuguho na sa mga tabing bahay. Dahil sa slope protection na ito, iyon ay naiwasan dahil natambakan at lumaki pa ‘yung space, pwede pang gawing taniman ng mga residente,” Punzal added. In his message, Governor Daniel R. Fernando

underscored that recognitions and awards only become truly meaningful when they are translated into tangible programs that improve the lives of Bulakenyos. “Nawa’y magsilbi itong paalala na ang bawat tagumpay ng ating lalawigan ay higit pa sa pagkilala at mga parangal, ito ay nagiging mga proyekto at serbisyong tunay na nararamdaman ng bawat Bulakenyo,” Fernando said. Construction on the project commenced on August 1, 2025, and was successfully completed on October 10, 2025—ahead of its original target completion date of October 15, 2025. oOo

successful observance of Open Gov Week 2026. In support of the nationwide call for a more transparent, accountable, participatory, and people-centered government, DOST Ilocos Region, together with its Provincial Science and Technology Offices—DOST Ilocos Norte, DOST Ilocos Sur, DOST La Union, and DOST Pangasinan—joined the celebration by opening its doors to the public and bringing science, technology, and innovation closer to the people, anchored on its commitment to deliver “Agham na Ramdam” through science-based programs and services that are accessible, responsive, and meaningful to communities across the region. As part of its Open Gov Week activities, DOST Ilocos Region facilitated an Open House event that welcomed students, partners, stakeholders, and the general public to learn more about the agency’s programs, projects, facilities, and science-based services. The activity featured interactive learning sessions such as Sci-Kwentuhan, SIMATAR, STARBOOKS, DOST Courseware, and STI Trivia, which made science, technology, and

innovation more engaging and accessible to visitors. Participants also explored the SOLIDO DRRM Knowledge Hub, where they learned about science-based disaster risk reduction and management resources, and joined the Regional Standards and Testing Laboratory tour (RSTL Tour), which provided a closer look at the technical services that support product quality, public safety, local enterprises, and evidence-based decision-making. For DOST Ilocos Norte, the celebration was brought to Batac City through a series of activities led by Provincial Director Brian U. Rasco, including audiovisual orientations, interest profiling, a pre-election engagement for the Movement of Ilocos Norte DOST Scholars (MINDS), and the OneASIN-MMSU Salt Production Knowledge Sharing session. These activities highlighted the importance of public awareness, scholarship engagement, and knowledge-sharing in supporting education, local industries, and community development. DOST Ilocos Sur, under the leadership of Provincial Director Jordan L. Abad, extended the spir-

it of open governance to Sto. Domingo by showcasing DOST programs and services, science, technology, and innovation initiatives, scholarship, livelihood, and community development opportunities, as well as technologies supporting local industries, MSMEs, and agriculture in the province. Beyond information-sharing, open governance was also demonstrated through direct community work, including water sampling for Project DANUM under the Community Empowerment through Science and Technology program in Banayoyo and food safety and value-adding training for ube processors in Sugpon. These activities reflected how scientific and technical support can help communities improve livelihood opportunities, food safety practices, and resilience. Meanwhile, DOST La Union, led by Provincial Director Jonathan M. Viernes, highlighted its programs and services, STI initiatives, and facility tours at the Regional Metrology Laboratory and the Advanced Manufacturing Center Ilocos Region. Through these tours, participants were introduced to the role of

accurate measurement, calibration, and advanced manufacturing technologies in strengthening local industries, supporting innovation, and improving service delivery. Completing the region-wide participation, DOST Pangasinan, led by Provincial Director Arnold C. Santos, presented its programs, services, STI initiatives, and calibration services in Lingayen. The activity helped participants better understand how DOST’s technical assistance and equipment calibration services support public safety, quality assurance, industry competitiveness, and the needs of local enterprises. Through Open Gov Week 2026, DOST Ilocos Region reaffirmed that open governance goes beyond opening doors—it is about building trust, encouraging participation, and making public service more accessible, responsive, and meaningful to the people. Guided by its commitment to deliver “Agham na Ramdam,” the agency remains steadfast in bringing science, technology, and innovation closer to people, beyond the observance of Open Gov Week and into its everyday service to the people.

World-Renowned Artist Hooranky Bae and Climate Change Task Force Sign Landmark Agreements for Global Climate Action and Sustainable Development

(MANILA, PHILIPPINES – May 2026) The Climate Change Task Force (CCTF), led by Director General Albert P. Dela Cruz, announced the successful signing of two landmark agreements with globally recognized South Korean artist BAE HAN-SUNG, professionally known as Hooranky Bae, marking a significant step toward strengthening international cooperation on climate action, environmental sustainability, and innovative climate financing. The signing ceremony was held on May 21, 2026 at the Office of Commissioner Albert P. Dela Cruz of the Climate Change Commission. The parties formally executed a Memorandum of Understanding (MOU) for Strategic Collaboration on Climate Action, Environmental Fundraising, NFT Innovation, and Sustainable Eco-Agri Tourism Development, alongside a Digital Asset (NFT) Issuance and Climate Action Fund Project Cooperation Agreement. The partnership establishes a comprehensive framework for integrating art, environmental advocacy, sustainable tourism, and blockchain technology to support climate-resilient development initiatives in the Philippines and internationally. A central component of the collaboration is the donation by Master Hooranky Bae of the rights to his internationally recognized masterpiece, “Flower of Water.” This work, which holds a \$54 million valuation and is certified by the Korea Data Certification Authority (KDCA), represents a monumental contribution to the cause. The artwork and its associated NFT rights will serve as the financial and symbolic foundation for future environmental fundraising and climate action campaigns under the Ecosaver.Earth platform. Through the application of fractional NFT minting technology developed by the Korean technical team, the initiative seeks to create a transparent and innovative environmental financing mechanism. This allows the high-value masterpiece to be shared digitally, enabling global participation in climate action while supporting community-based sustainability programs. In recognition of his contributions to environmental advocacy and international cooperation, the Climate Change Task Force formally conferred upon Master Hooranky Bae the title and credentials of “Climate Change Task Force (CCTF) International Ambassador.” In this capacity, the artist will serve as a global advocate for climate resilience, environmental stewardship, ecological conservation, and sustainable development initiatives. The collaboration aligns with the principles of the United Nations Sustainable Development Goals (UN SDGs) and the United Nations Framework Convention on Climate Change (UNFCCC), promoting environmental integrity, transparency, community participation, and long-term climate resilience. Priority projects under the partnership will support ecological conservation, climate adaptation, environmental rehabilitation, sustainable tourism, and community livelihood initiatives in vulnerable areas of the Philippines, including Agno (Pangasinan), Tarlac, Palawan, Zambales, Pampanga, Camarines Norte, Camarines Sur, Mountain Province, Cagayan, Cebu, Surigao del Norte, Surigao del Sur, Agusan del Norte, and Agusan del Sur. Prior to the signing, representatives of the Climate Change Task Force and Master Hooranky Bae met with local leaders in Agno, Pangasinan to discuss opportunities for strengthening local climate action initiatives and promoting sustainable eco-agri tourism development. The visit highlighted the growing role of arts and culture in advancing environmental awareness and community resilience. Master Bae emphasized that art possesses the unique power to connect people across cultures and inspire collective action in addressing global environmental challenges. Through this partnership, he expressed his commitment to supporting Philippine climate initiatives while promoting environmental stewardship through creative expression and technological innovation. Director-General Albert P. Dela Cruz welcomed the partnership, stating, “This collaboration demonstrates how art, technology, and environmental leadership can work together to advance climate action and sustainable development. Master Hooranky Bae’s contribution will help strengthen international support for climate resilience initiatives while creating meaningful opportunities for communities and ecosystems that need protection most.” The Climate Change Task Force and Master Hooranky Bae are expected to expand the initiative through strategic partnerships with international organizations, environmental institutions, philanthropic foundations, and private-sector stakeholders to accelerate climate action and sustainable development efforts worldwide.

2nd District Municipalities of Lanao del Norte Complete STI Planning Workshop... From page 1

tion-driven communities. Held on June 9–10, 2026, at Kalimudan Hall, Pigcarangan, Tubod, the workshop brought together local government officials, planners, industry representatives, and community stakeholders with a shared mission: to develop the foundation of a Science, Technology, and Innovation (STI) Agenda—a living and actionable blueprint that will guide participating municipalities toward sustainable growth and inclusive development. Over the two-day workshop, participants explored the importance of STI planning, drew inspiration from successful local innovations, mapped key stakeholders, crafted strategic visions, and identified measurable performance indicators. The insights, data, and collaborative outputs generated during the sessions will serve as the foundation of the STI Agenda, which is currently being developed through the collective expertise and active partici-

Once finalized, the STI Agenda will guide the implementation of programs, projects, and services that will benefit households, farmers, entrepreneurs, and communities throughout the 2nd District. These initiatives will form part of the Department of Science and Technology’s (DOST) Smart and Sustainable Communities Program (SSCP). To all municipalities of the 2nd District of Lanao del Norte that sent their representatives and actively participated in this undertaking, thank you for your commitment and dedication. Your presence and engagement reflect a shared vision for progress and a determination to create better opportunities for your communities. The future of Lanao del Norte is being built—one STI Agenda at a time—and this journey begins with your collective commitment to innovation, sustainability, and inclusive development.

SHOWBLITZ By: Charlene Mae Ellen, may kinalaman ba? John Lloyd at Isabel pinagdududahang break na, nagkaproblema sa birthdays at men?!

Break na ba sina John Lloyd Cruz at girlfriend niyang Isabel Santos? May alam kaya si Ellen Adarna? Usap-usapan kasi ito matapos i-deactivate ni Ms. Isabel ang kanyang Instagram account. Ito ay pagkatapos ng kanyang ilang cryptic post tungkol sa ‘birthdays’ at ‘men.’ Habang sinusulat namin ito ay hindi na ma-access ang account ni Isabel na naging visible sa social media lately dahil sa mga post ng ex ni John Lloyd. “I give up. Birthdays are just a day in a year you force to feel something. I’ve never had a good birthday for over six years and I don’t know why I keep trying,” kabilang sa mga post niya sa social media. Dagdag niya sa isang photo quote: “36 is the year you start accepting compliments without embarrassment. This year your task is to believe in the promise of your own life. “Say no to sh-t you hate. Remember what it feels like to roll around in your own dreams. Go to the limits of your longing. Leave the door open for people to walk through. As you journey into the next year, say, ‘Here I am,’ and listen closely as the universe responds, ‘So glad you are,’” buong post niya. Kalakip ng mga nasabing quote ang pagbati niya sa sarili, “Happy birthday week, Isabel Santos.” Isa pang nagpaisip sa social media users ay ang post niyang nagpapakita ng mensahe na “Men don’t protect you anymore” na nakaukit sa isang parang

marmol na upuan. “They follow the [money emoji],” sabi nito sa caption. Grabe ang nabuong bonding kina John Lloyd, Isabel and Ellen. Ilang beses silang nag-out of town kasama ang anak nina Ellen at John Lloyd na si Elias at maging si Lili. May kinalaman kaya rito ang mga statement ni Ellen lately na hindi siya nakikipagbalikan sa ex? Assurance rin kaya ang mga pahayag ni Ellen na “best stepmom” si Isabel? Sinabi nga ni Ellen sa online talk show ni Melai Cantiveros na hindi na siya naniniwala sa love at ramdam niyang mas ok siyang mag-isa. “I realized na I’m better off alone,” sabi ni Ellen na legally ay misis pa ni Derek Ramsay hanggang sa kasalukuyan. Kasabay nito ay inamin din niyang nakalive-in niya lahat nang nakarelasyon niya na aniya ay turo ng kanyang ama. At ang kinumirma niya, hindi raw siya nakikipagbalikan sa mga nakarelasyon niya. Or baka naman sinabi niya ito dahil nga nakita niya na may something na kina John Lloyd at Isabel? Ipinakita rin makailan ni Ellen ang kanilang bonding kay Isabel sa Boracay trip sa pamamagitan ng kanyang Instagram stories. “Eh ‘yung iniiyakan kita for being the best stepmom. Mahal kita!” sabi niya sa post na kasama si Isabel. Ahhh. Hintayin natin kung ano talagang pangyayari at kung bakit tinanggal ni Isabel ang kanyang account.

Bukol at sugat nagpatapang kay Scottie Thompson

MANILA, Philippines — Kapag nasusugatan ay lalong tumatayang. Iyan ang pinatunayan ni Scottie Thompson matapos sungkitin ang panibagong Finals MVP award sa kabila ng mga bukol at sugat na inabot sa buong conference.

“Nag-bulur ‘yung paningin ko. Pero naging blessing, kasi nagising ako,” ani Thompson matapos ang boxer’s cut mula sa aksidenteng tamaan ni Kelly Williams ng Talk ‘N Text sa unang minuto palang ng makasaysayang PBA Season 50 Commissioner’s Cup Finals Game 7 tam-

pok ang bagong PBA record na 24,617 fans sa Mall of Asia Arena. “Ang daming bugbog sa series, so worth it. The more bukol, the more panalo.” At ito nga ang gumising kay Thompson na kumamada ng halos triple-double na 19 puntos, 11 rebounds at 8 assists sahog pa ang 3 steals sa 88-76 panalo ng Gin Kings kontra sa Tropang 5G sa Game 7.

Sa kabuuan ng serye tampok din ang 17 puntos, 11 rebounds at 11 assists na triple double sa Game 3, nagre-histro si Thompson ng kumpletong 10.3 puntos, 7.0 rebounds, 5.6 asists at 1.3 steals sa 7 laro.

Ito na ngay-on ang ikatlong Finals MVP ni Thompson matapos unang magwagi noong 2018 Commissioner’s at 2021 Governors’ Cup. Aminado ang dating NCAA at PBA mula MVP sa Perpetual Altas na ikinagulat niya ang parangal dahil sa ibang teammates na maganda rin ang ipinakita pero ang pinakamahalaga ay ang panibagong kampeonato nito. “Isa sa pinaka the best ‘to. Mabaon ko ‘to habang buhay, tapos in front of my kids,” anang 32-anyos na pride ng Padada, Davao del Sur.
