INTERNET:MURA AT MABILIS NA ACCESS PARA SA LAHAT, ISINUSULONG SA KAMARA

NI: TANTAN FRANCISCO

Dahil sa pag-usad ng ekonomiya sa kabila ng mga kinakaharap na krisis ng bansa ay patuloy ang pagsusulong ng mga batas para sa ikagaganda at mabilis na pagunlad ng ekonomiya. Sa pagnanais na makipagsabayan sa ilang mga karatig bansa sa asya karamihan sa mga ito ay mauunlad na, sa tulong ng makabagong teknolohiya na nakakatulong sa mabibilis na

transaksyon ng kalakalan at ilang mga trabaho maging sa edukasyon ay ginagamit ang mga ito. Dito sa ating bansa ay nakakasabay na din sa mga makabagong teknolohiya subalit kaiba sa mga bansa na mas mabilis ang pagusad ng Ekonomiya at ano pa mang ginagamitan ng teknolohiya. Marami na ring mga programang ginawa ng gobyerno

Sun Drying Innovation Gains Ground at 2026 National Summit

The 2026 National Sun Drying Tray Summit and Presentation of Accomplishments gathered science leaders, regional implementers, and technology partners from February 24 to 26 at La Breza Hotel in Quezon City. The three day event

brought together representatives from all regional offices of the Department of Science and Technology, the National Research Council of the Philippines (DOST-NRCP), and the Office of the Undersecretary for Regional Operations

(OUSECRO). Hosted by the DOST Regional Office II in Cagayan Valley, the summit underscored strong interregional collaboration in advancing postharvest technologies for Filipino farmers and fisherfolk. At the center of discus-

sions was PORTASOL, short for Portable Solar Dryer, developed by Mr. Francisco Popoy Pagayon. Originally designed for drying palay, the technology has evolved with the support of DOST to accommo-

DOST STRENGTHENS REGIONAL STARTUP ECOSYSTEM THROUGH THE ROLLOUT OF IHUBS ACROSS SOCCSKSARGEN

As part of its continuing efforts to strengthen the startup ecosystem across the country, the Department of Science and Technology (DOST) launched the activity “Strengthening the Regional Startup Ecosystem: Establishment of Provincial and

Regional Innovation Hubs (iHubs)” on February 24, 2026 at Watergate Hotel in Butuan City. The activity gathered regional directors, provincial science and technology directors, innovation champions, and key

date nearly all types of farm produce, including corn, coffee beans, cacao, fish, and high value crops. According to Mr. Pagayon, what began as a solution for rice farmers has expanded into a versatile system that responds to the varied drying needs of agricultural and fishery communities. PORTASOL offers a hygienic and enclosed drying facility powered by renewable solar energy. Unlike traditional open sun drying methods that expose produce to dust, animals, sudden rain, and uneven heat, the system provides controlled airflow and protection from contaminants. This results in better product quality, improved food safety, and reduced post-harvest losses. Its portable design also allows farmers and fisherfolk to deploy the unit in different locations, making it adaptable to community based operations and small scale enterprises. The first two days of the summit were dedicated to regional accomplishment reports, deployment up-

dates, and sustainability plans. Regional offices presented data on the number of units distributed, beneficiary profiles, training activities conducted, and income improvements observed in pilot communities. Discussions also tackled operational challenges such as maintenance concerns, site selection, weather variability, and strategies for strengthening local ownership. Mr. Pagayon actively engaged with participants to address technical issues and gather feedback for further refinement of the technology. On the final day, participants conducted a project visit within the National Capital Region to observe PORTASOL in actual operation and to engage directly with beneficiaries. Farmers and processors shared testimonies on how the technology improved drying time, reduced spoilage, and enabled them to command better prices in the market due to higher quality produce.

para mapabilis ang pagproseso ng mga dokumento sa mga ibat ibang tanggapang ahensya ng Gobyerno. Nariyan ang EGov Apps, LTMS ng Land Transportation Office at iba pang tanggapang na dati ay pinipilahan ng mahaba ng mga mamamayan sa pagkuha lamang ng dokumento na kanilang kinakailangan. Minsan pa nga ay alas 12 pa lamang ng hatinggabi ay pumipila na upang sa pagsapit ng umaga sa pagbubukas ng mga opisina ay matawag na ang kanilang pangalan. Subalit dahil sa makabagong teknolohiya ay unti napapabilis ang proseso at nagkakaroon na ng mga satellite offices sa mga lalawigan at Rehiyon para hindi na kailanganin na lumuwas pa ng Maynila para sa pagproseso ng kanikaniyang dokumento. Subalit sa teknolohiya ay kinakailangan ang Internet na siyang nagpapabilis sa Communication at transaksyon bagama't hindi kasimbilis ng mga network sa ibang mga bansa at ang ilan sa mga ito ay nagagamit ng kanilang mga mamamayan ng libre. Dito sa ating bansa ilang mga network company ay may kanikaniyang mga ibinibigay sa mga consumers na promo ula sa 25mbps hanggang 100mbps pataas na may kanikaniya din mga presyo kung ano ang iavail. Karamihan ay hindi kayang magpakabit ng

internet dahil na rin sa ito ay dagdag din sa gastusin sa pang araw na pamumuhay. Kadalasan ay kinakailangan ng mga kabataang magaaraal para sa kanilang mga assignment o projects sa eskwelahan. Upang ito ay matugunan ay nagsulong ng panukalang batas si !TAHANAN PARTY-LIST Representative Atty. Nathaniel M. Oducado na "SANA ALL MAY INTERNET ACT " para sa Mura at Mabilis na Access sa Internet. Sa pamamagitan nito ay makaka avail ang mga Filipino ng murang internet bagamat may kaunting problema din na kinakaharap ang internet ito ay yun bilis ng access nito. Marami din ang nagrereklamo sabagal ng ilang networks, kaya naman sinisikap ng DICT na maisaayos at mapaganda ang serbisyo ng Internet sa bansa sa tulong ng makabagong teknolohiya. Hindi na bago ang pagsasabing ang pag-access sa internet ay may mahalagang papel sa pagpapaulad ng makabagong teknolohiya, pagtataguyod ng panlipunang pag-unlad, at pagsuporta sa paglago ng ekonomiya. Ang katatagan at pagkakaroon ng mga serbisyo sa internet ay mahalaga para sa pagpapahusay ng operasyon ng pamahalaan at pribadong sektor, na malaki ang naiiaambag sa epektibong paghahatid ng mga serbisyo.

Heart, nag-ingay sa
manipis na suot sa
Paris

Tuloy ang ingay sa social media ng actress/global fashion icon na si Heart Evangelista matapos mag-post ng mga kuha niya na nakasuot ng manipis na pink na pang-itaas sa Off-White fashion show sa Paris para sa ginaganap na Paris Fashion Week. Sa kabila nga ng malamig na panahon ay parang hindi nito apektado si Heart. Sa kanyang post ay nakita ang kanyang bagong style. Mas fresh ang atake at hindi nagpapaka-safe sa ginaganap na Womenswear Fall/Winter 2026-2027. Maging ang account ng Paris Fashion Week ay kabilang si Heart sa favorite street-style look. Maaalalang pinatag ni Heart ang kanyang katayuan bilang global fashion icon nang mapunta siya sa Top 10 Key Voices ng Lefty para sa January 2026 Paris Menswear Fashion Week.

Napasok ni Heart ang isang heavily male-dominated influencer landscape dahil nakapagtala siya ng 5.4% engagement rate na nakapag-generate ng \$3.34 milyon na Earned Media Value (EMV). Kasama niya sa Top 10 ang mga K-pop idol na sina Mingyu (Seventeen), The8 (Seventeen), at Hyun-jin (Stray Kids); Thai actor at singer na si Nattawat Jirochtikul (Fourth); at iba pang talents at brand ambassadors sa Asia-Pacific region. Sa manta la, magsisimula na ngayong gabi under the direction of Rico Gutierrez ang Heart World Season 2, 9:30 p.m. sa GMA Network. Muling mapanood dito ang pakikipagsapalaran niya sa fashion world na nagluklok sa kanya bilang one and only Pinay global fashion icon.

ECOSYSTEM... FROM PAGE 1**

stakeholders from across Mindanao to align strategies in building stronger, more inclusive startup communities. Representing DOST SOCCSKSARGEN were Regional Director Engr. Sammy P. Malawan and Provincial Director Dr. Michael T. Mayo of PSTO Cotabato. The event featured a ceremonial Memorandum of Agreement (MOA) signing, signifying the commitment of participating DOST offices and partners to establish and strengthen Provincial and Regional Innovation Hubs (iHubs). Moreover, collaborative workshops and knowledge-sharing sessions were conducted such as discussions on AI Harmonization and the Smart Office System for Government Excellence. By establishing Provincial and Regional Innovation Hubs (iHubs), DOST aims to provide shared spaces for ideation, in-

cubation, mentoring, prototyping, and access to funding and technical support. In SOCCSKSARGEN, one Innovation Hub has recently been established at the University of Southern Mindanao in Cotabato Province, serving as a collaborative space for students, faculty researchers, and local innovators. The participation of DOST SOCCSKSARGEN in this national initiative opens greater opportunities to cultivate more technology-based startups in the region. Moving forward, the agency aims to establish additional innovation hubs across the region and strengthen partnerships with higher education institutions, local government units, and private sector stakeholders to further nurture a vibrant and sustainable startup ecosystem in SOCCSKSARGEN.

**CONGRATULATIONS TO OUR TOP 20 EARNERS
FOR THE MONTH OF FEBRUARY!**

Your dedication, passion, and relentless drive have truly paid off — turning goals into accomplishments and dreams into results. Every effort you put in has contributed not just to your success, but to the growth of our supportive and empowering community. Your achievement reflects strong leadership, a winning mindset, and a commitment to excellence. Thank you for setting the bar high and inspiring others to rise alongside you. Here's to more milestones, more breakthroughs, and even greater success ahead! Keep leading, Keep making waves and Keep Shining like GOLD!

SPORTS NEWS

Eala-Yastremska rematch ngayon sa BNP Paribas Open

MANILA, Philippines — Raratsada na si Alex Eala sa singles at doubles events ng BNP Paribas Open na ginaganap sa Indian Wells, California. Haharapin ni Eala sa second round ng singles si Dayana Yastremska ng Ukraine na lalaruin sa Court 3 sa alas-11:10 ng umaga (oras sa Maynila). Nakatiyak si Eala ng opening round bye dahil sa kaniyang No. 31 seeking, habang nanalo naman si Yastremska kay Zhang Shuai ng China sa kaniyang unang pag-salang sa iskor na 6-3, 6-2.

Hindi ito ang unang paghaharap nina Eala at Yastremska. Nagtagpo na ang dalawa sa quarter-finals ng Eastbourne Open na ginanap sa Great Britain noong nakaraang taon kung saan naitarak ni Eala ang impresibong 6-1, 6-2 panalo.

Ngunit grasscourt ang Eastbourne Open kumpara sa BNP Paribas Open na isang hardcourt. Kaya naman inasahang ilalabas ni Eala ang buong puwersa nito upang masiguro ang panalo at mapapasok sa third round.

Posibleng makaharap ni Eala sa third round ang kaibigan nitong si Coco Gauff ng Amerika. Matatandaang si Gauff ang nagpatal-sik kay Eala sa quarterfinals ng Dubai Tennis Championship sa United Arab Emirates noong nakaraang taon.

Excited na si Eala na makalaban si Gauff dahil marami itong natutunan sa tuwing nakakasama nito ang Grand Slam champion sa court.

“Coco is an incredible person and she’s a role model for a reason. Our last match was great. She played amazing and I always learn a lot when I share the court with her, whether it’s practice or a match,” ani Eala sa isang ulat.

Gayunpaman, kailangan muna ni Eala na isentro ang atensiyon nito sa kaniyang scond round match sa Ukrainian netter.

Kukuha ng lakas si Eala sa mga Pinoy fans na inaasahang daragsa sa venue upang manood ng kaniyang laban.

“The atmosphere in each tournament has been amazing and it’s been a different start this year than any other year I’ve ever had,” dagdag nito.

Bago ang singles, sasaabak muna si Eala sa doubles kasama si Iva Jovic ng Amerika.

Makakalaban ng dalawa sa opening round sina Hailey Baptiste ng Amerika at Jelena Ostapenko ng Latvia sa alas-3 ng umaga.
